Land Freight

Most transport chains include trucking at either the beginning or the end. Having an own fleet of multipurpose trucks and trailers, we offer competitive pricing coupled with a reliable and world class quality road transport and distribution services.

Whether a customer needs to distribute product in bulk or break-bulk, or move product from DC to DC or direct to store, we identify the best solution. This makes our service offering flexible and cost effective. Other distribution services include sub-routing and distribution center management. Our experienced team across all operating companies ensure professional management of our DCs, which in turn enables our customers to focus on their core business.

Our Road Freight Services Include

- Assembly and Synchronous Positioning of Loads of Units.
- Transportation of Less Than Truckload (LTL), Full Truckload (FTL) and Bulk Cargo
- Special Transportation of heavy weight, oversized and project cargoes.
- Transportation of dangerous and perishable goods
- Special transportation of household goods and personal effects
- Contract-logistic, procurement and distribution
- Tracing and tracking through the Global Positioning System
- Domestic trucking and distribution
- Single source of various types of fleets

Sea Freight

Sea Freight is one of the key elements in multimodal transportation service. In order to offer the best service possible, we have a dedicated Ocean Freight Department specializing in FCL, LCL, Break-bulk, Project Cargo and different types of cargoes on a global scale.

The flexibility and range of Sea Freight Services offered to our customer economical alternatives to other, more costly modes of transportation. Our national logistics services cover not only shipments from port-to-port, but also the complete door-to-door supply chain solution.

Over the years, we have fostered strong business relationship with some international and regional ocean carriers.

Our Sea Freight Services Include:

- Less than Container Load (LCL) and Full Container Load (FCL), import and export.
- Issuance and verification of shipping documentation.
- Export and import customs clearance
- Packing and crafting of household goods.
- Part and full vessel charter.
- Conventional shipment (break-bulk, dry and liquid bulk).
- Sea/Road and Sea/Rail Intermodal Services.
- Transport and Marine Insurance.

Air Freight

We develop comprehensive airfreight service plans tailored to meet our customers' specific requirements. Therefore, our team of Air Freight professionals follows through on each and every shipment so that our customers can be assured of real-time status reports on all important and export air freight shipments at all times to ensure a high quality service related to the handling of part and full charter including complete door to door delivery logistics on a global scale.

- Packing and Crating
- Shipment Booking
- Insurance Service (via panel of brokers)
- Bill of Lading Preparation
- Import or Export Documentation Preparations
- Shipment Monitoring and Tracking Services
- Customs Clearances

Custom Clearance

In the global market place, rapidly changing demands on production and delivery schedules have placed increased responsibility on Customs House Brokers to provide expert Custom Clearance Services.

We have long-standing professional relationships with government agencies and this hard earned and privileged status delivers a distinct advantage when it comes to negotiating difficult consignments and dealing with the challenge of bureaucratic procedures.

Regardless of the speed with which a consignment reaches one of the destination points, complex customs procedures and documentation requirements can result in indefinite delays costing heavy storage charges to consignees.

Our customs brokerage team will take full and complete responsibility to ensure that the correct documentation is prepared well in advance of all import and export deadlines in order to avoid expensive and time consuming delays.

To further strengthen this aspect of our operations, we maintain a bonded warehousing network. These facilities, which are suitable for any type of cargo, can be reached by road, rail or air and ensure that shipments are swiftly cleared at the point of arrival.

Customs Services include:

- Import/Export Customs Clearance Service
- Import Duty and Tax Assessment
- Classification of HS Codes
- Classification of goods
- Customs Surveying
- Import/Export Permissions of controlled goods
- Temporary Import/Export procedures
- Permanent Import/Export procedures
- Transit Customs Handling
